React JS | JavaScript | Bootstrap | Tailwind | HTML5 | CSS3 | GitHub

PROJECTS

Pizza capers

[Live URL](#) | [Github](#)

Pizza delivery app built using HTML, css, JavaScript and React js

- User can add items to their cart, and the app ensures real-time updates on the cart's contents and total price.They can send email to the support team to submit complaints and provide reviews, enhancing communication and feedback options.
- A secure authentication system, allowing users to create accounts, log in, and securely store their personal data. The app boasts a user-friendly interface, enabling users to effortlessly search and filter menu items based on preferences.

Weather App

[Live URL](#) | [Github](#)

Developed a weather application using React.js, JavaScript, HTML, and CSS

- User can search weather conditions in various cities or countries. The app retrieves real-time weather data from an external API and displays it in a user-friendly interface.
- User can enter a location, and the app provides detailed weather information. Integrated a third-party weather API to fetch and display accurate weather data.Utilized React.js for efficient state management and component reusability.

Buy spot

[Live URL](#) | [Github](#)

E-commerce app built using HTML, CSS, JavaScript, and React

- Products are categorized, and when a user clicks on a category (e.g., "Mobile"), only mobile products are displayed. User can add products to shopping cart, view the cart contents, and proceed to checkout. SweetAlert is used for user-friendly pop-up notifications, such as order confirmations and if item added to the cart.
- Users can create accounts, log in, and maintain personalized profiles. Authentication ensures secure access to user-specific data. Slick Slider is implemented for visually appealing product carousels, enhancing the user experience.

EDUCATION

Full stack Web Development

2022 - present

Skill Safari, Coimbatore

- This Full Stack Web Development course at Skill Safari equipped me with the knowledge, skills, and practical experience necessary to design, develop, and deploy web applications. It also fostered a passion for solving complex web- related challenges and a commitments.
